

RES H/C SPREAD - Presentation of final results

25th October 2016

COV2 10/191, Covent Garden, Place Rogier 16, 1210 Brussels

The project [RES H/C Spread](http://www.res-hc-spread.eu) (2014-2016) supported by the **Intelligent Energy Europe programme** of the EU is coming to an end. For the last two and a half years the project has been working with a number of **regional authorities** in the EU in the development of **plans and strategies in support of sustainable heating and cooling**.

A circa 2 hour **exchange between the EASME , EC representatives and the project team** is scheduled in **Brussels on the 25th October** from 10.00 to 12.00 AM. This will include a presentation of the **main results and successful experiences from participant regions**.

The 6 participant regions are Region of Castilla y Leon, (ES), Region of Emilia Romagna (IT) , Region of Riga (LV), Region of Rodophe (BG), Region of Western Macedonia (EL) and Region of Salzburg (AT).

You can find more information about the project on www.res-hc-spread.eu
